The product information is available at: <https://planet-innovation.de/>

The customer has to make the product information available to his contractual partners in a suitable manner. In the case of commercial or professional contractual partners, this applies to the respective safety data sheet, the product information sheet and the operating instructions; the respective product information sheet for consumers.

## 6. Storage and safekeeping

- Keep container tightly closed in a well-ventilated place.
- Keep container dry.
- Keep only in the original container between 5 and 30 ° C.
- Protect from heat and direct sunlight and UV light. Store container upright.
- Protect from frost. Use containers made of polyethylene (PE).
- Use opened containers within 3 months.

## 7. Advertising

Every advertisement for the products must contain the legible and clearly set off notice according to Art. 72 Para. 1 Biocidal Products Regulation (EU) 528/2012:

"Use biocidal products carefully. Read the label and product information before use. "

"Use biocides safely. Always read the label and product information before use."

In advertising, the product must not be misleading with regard to the risks of the product for human or animal health or for the environment or its effectiveness. Under no circumstances may the advertising contain the information "biocidal product with low risk potential", "non-toxic", "harmless", "natural", "environmentally friendly", "animal friendly" or similar information
